IMAGERY STYLE

Doctors and patients, warm colors, not blue or sterile, nice depth of field, photography of stethoscope and book, medical classroom environment, medical seminar.

THE SYMBOL

The symbol in the center of the logo is a book transforming into a stethoscope, it represents learning in health, focusing on HCP's furthering their education.

The container is a hexagon seal which grounds the logo in the light cyan brand color.

On the outside of the logo, there is a simple stroke in dark navy which creates a C shape, reinforcing Catalyst.
